SolarLight Libraries

SOLAR LIGHT LIBRARY

Your school now has a Solar Light Library which enables students to study after dark using clean, safe, solar lighting.

The library is here to help create opportunities for students to improve their education and exam results, without having to use dangerous, polluting kerosene lamps and candles.

Solar lights use the light of the sun during the day, so that they can provide clean, safe, quality lighting after dark.

Solar Lights are available to registered students for rent.

To find out more, please speak to a member of staff.
If you have any questions, concerns or would like to report misuse of the Library, please contact ----------...

In Local Language: Please talk to a teacher if you would like to learn more.
